

Capacity word problems

WORD PROBLEMS WORKSHEET

It's a hot summer afternoon and Maya is running her lemonade stand. She fills a big pitcher with 32 cups of fresh lemonade, ready to serve thirsty customers walking by.

1. Maya's first three customers each buy a tall glass that holds 2 cups of lemonade. How many cups of lemonade did Maya pour for them in total?

Answer: _____

2. After serving those first three customers, how many cups of lemonade are left in the pitcher?

Answer: _____

3. Maya's friend Ben brings a small pitcher that holds 18 cups of lemonade. How many more cups does Maya's big pitcher hold than Ben's small pitcher?

Answer: _____
