

Money word problems

WORD PROBLEMS WORKSHEET

Maya is saving up for a new bike. She has been putting her allowance and lemonade stand earnings into her piggy bank. So far she has saved \$42 altogether.

1. On Saturday, Maya earned \$8 from her lemonade stand and her grandma gave her \$5 for helping in the garden. How much money did Maya add to her piggy bank that day?

Answer: _____

2. After adding Saturday's earnings, how much money does Maya have in her piggy bank now?

Answer: _____

3. The new bike Maya wants costs \$80. How much more money does Maya need to save before she can buy it?

Answer: _____
